Better processes  
Better Software Development

# ABOUT US

Software solutions Inc. was founded in **2009** to focus on developing **web and mobile applications**. Over the last ten years, we have **successfully completed** dozens of projects from simple landing pages to business websites, payment portals, SAAS platforms and mobile and applications.

Our designers and developers are **expert at executing custom designs** to accomplish our client's business objectives with **optimal architecture and design**, and ease of implementation. Quality control and testing of the finished product are of paramount importance to us. **We guarantee our quality of delivery from start to launch.**

# OUR SERVICES

**Software Solutions Inc.** is a full-service digital design and software development agency established in 2009. **Our Team** consists of system engineers, business strategists, software architects, full-stack developers with expertise in a cloud application, business system integration, database developers and agile project managers. Whether for startup or Fortune 500 enterprise our engineers specifically tailor our projects to **our client's business needs**, budgets, and timelines.

Our development and business system engineering team includes **highly skilled and trained professionals** in all the disciplines required to execute the project plan that follows: CRM integrations, mobile technologists, front-end and back-end developers, quality assurance engineers, and system administrators.

## DISCOVER & KICK-OFF

Through a series of meetings, we gather data on business objectives, performance requirements and feature sets. Our project manager and development team then **build a development schedule** and cost estimates and present them for review and agreement to proceed.

## MOCK-UPS & DESIGN

Once our team maps out an actionable project plan, we build a non-functioning product deck: A visual representation of the end product. We begin full development of the application once the client **approves the final visuals** of the UX/UI images.

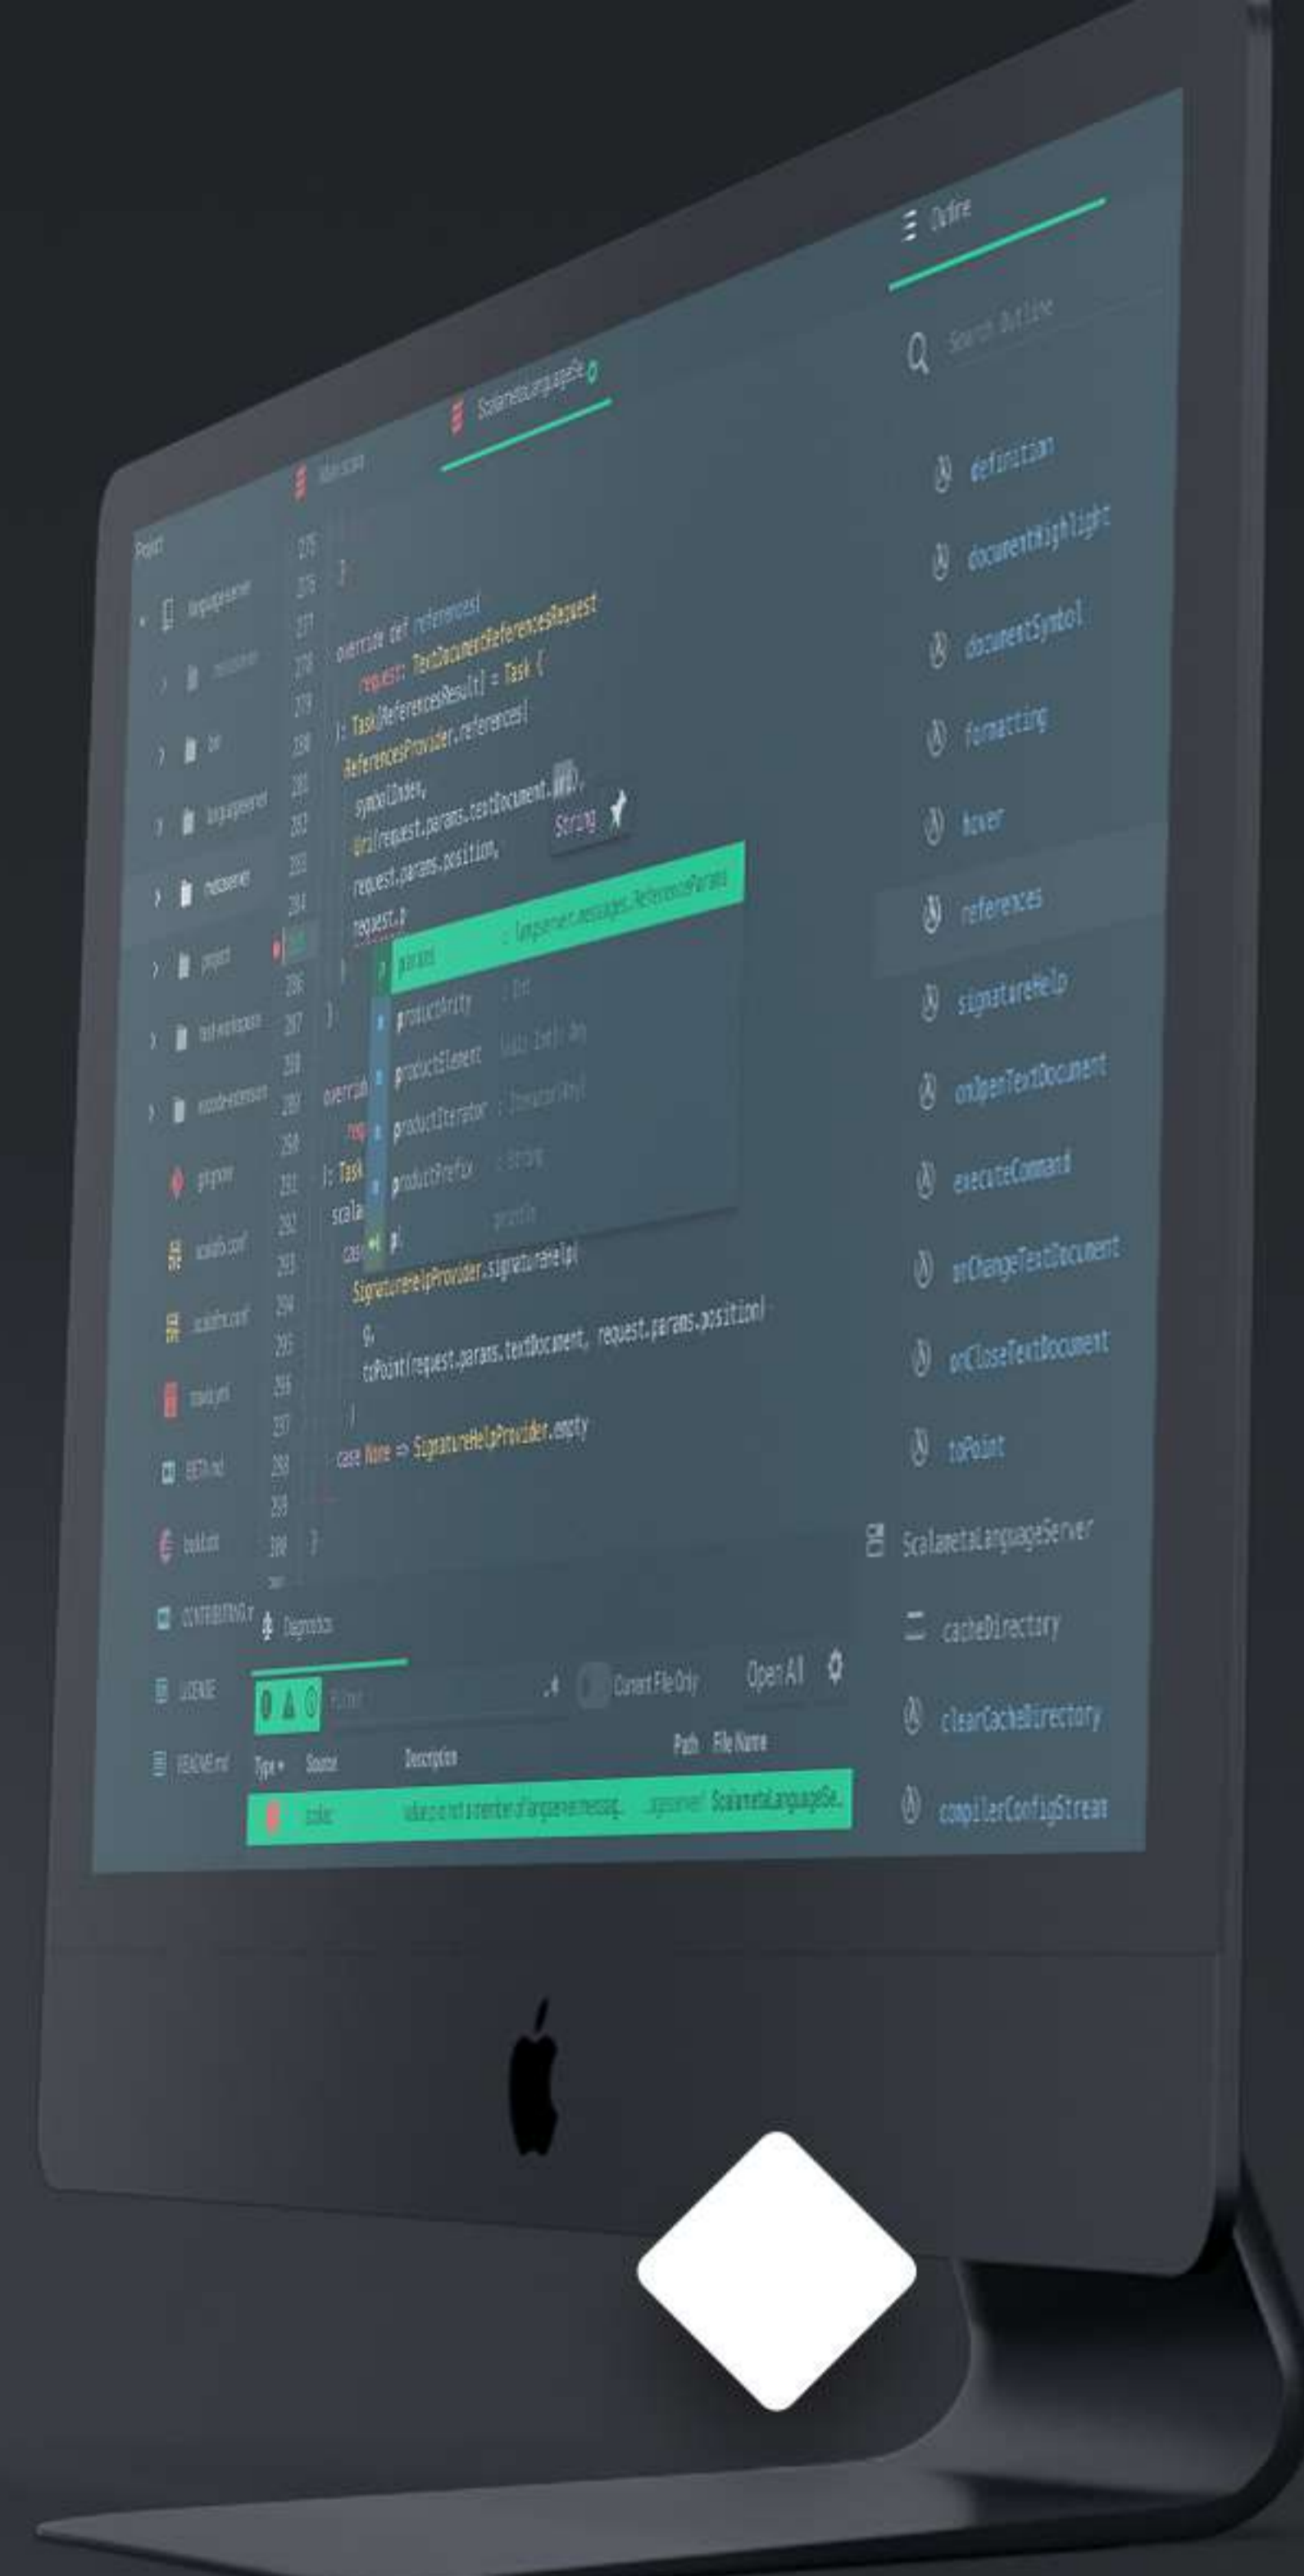

## PROJECT LAUNCH & SUPPORT

Once built, we test the app for quality and accuracy of system requirements and feature sets. With testing successfully completed, we **deploy the app** via Apple and/or Android app stores, and then support, maintain and develop new **feature upgrades**.

## ARCHITECTURE & DEV

We begin every project by laying out an architecture, database schema, and functional specification. **Coding demands precision, perfection and skill.** We carefully select the correct languages, technology, and frameworks to best suit each project.

# WENDY DIGITAL APP

## APP CONNECT MILLIONS OF WENDY WILLIAMS'S TV VIEWERS AND FANS.

For the **Wendy Williams Show**, a top-rated talk show hosted by Wendy Williams, Appwilio built one of the **first direct-to-fan mobile** apps in the Entertainment Industry. At launch, the app was **rated 7th and 9th** in the Google Play and iTunes Stores, respectively; rated 4.8 out of 5 stars in both stores by over 500 users; and **acquired 100k+ users** in eight weeks. We achieved these results by launching features aligned with **Wendy Digital's** goals of acquiring, activating, retaining and monetizing fans.

This **very successful** launch reflects **Software solutions Inc.** unique approach to developing web applications. Early in the design process, we engage users to get their insight on **features and functions**, and enlist them as evangelists when we launch the app. Using this approach, we recruited **over 2000** Wendy fans into the Wendy Mobile App Beta **Testing Community**. Since these fans had provided their ideas and feedback to help design the app, they actively recruited their friends to use the app when it was launched.

## MOBILE FISHING GAME

Hook'em Hard is an exciting and engaging new **mobile fishing game** for the ios and android platforms that is currently in development. Most mobile fishing games fall into 1 of 2 categories. They are either **fun arcade style** games that are fantasy based, with little relation to real fishing, or they are **very realistic** fishing games that do a good job of simulating real fishing but are boring and not much **fun to play**.

Hook'em Hard blends these types of games into a **fun and engaging game** with a strong basis in real fishing. Players must understand and use the correct rods, reels, line, hooks, baits, and lures to attract and catch fish from **all over the world**. The initial launch version of Hook'em Hard lets players fish at **23 unique fishing locations**, including some of the world's most well known and desirable spots.

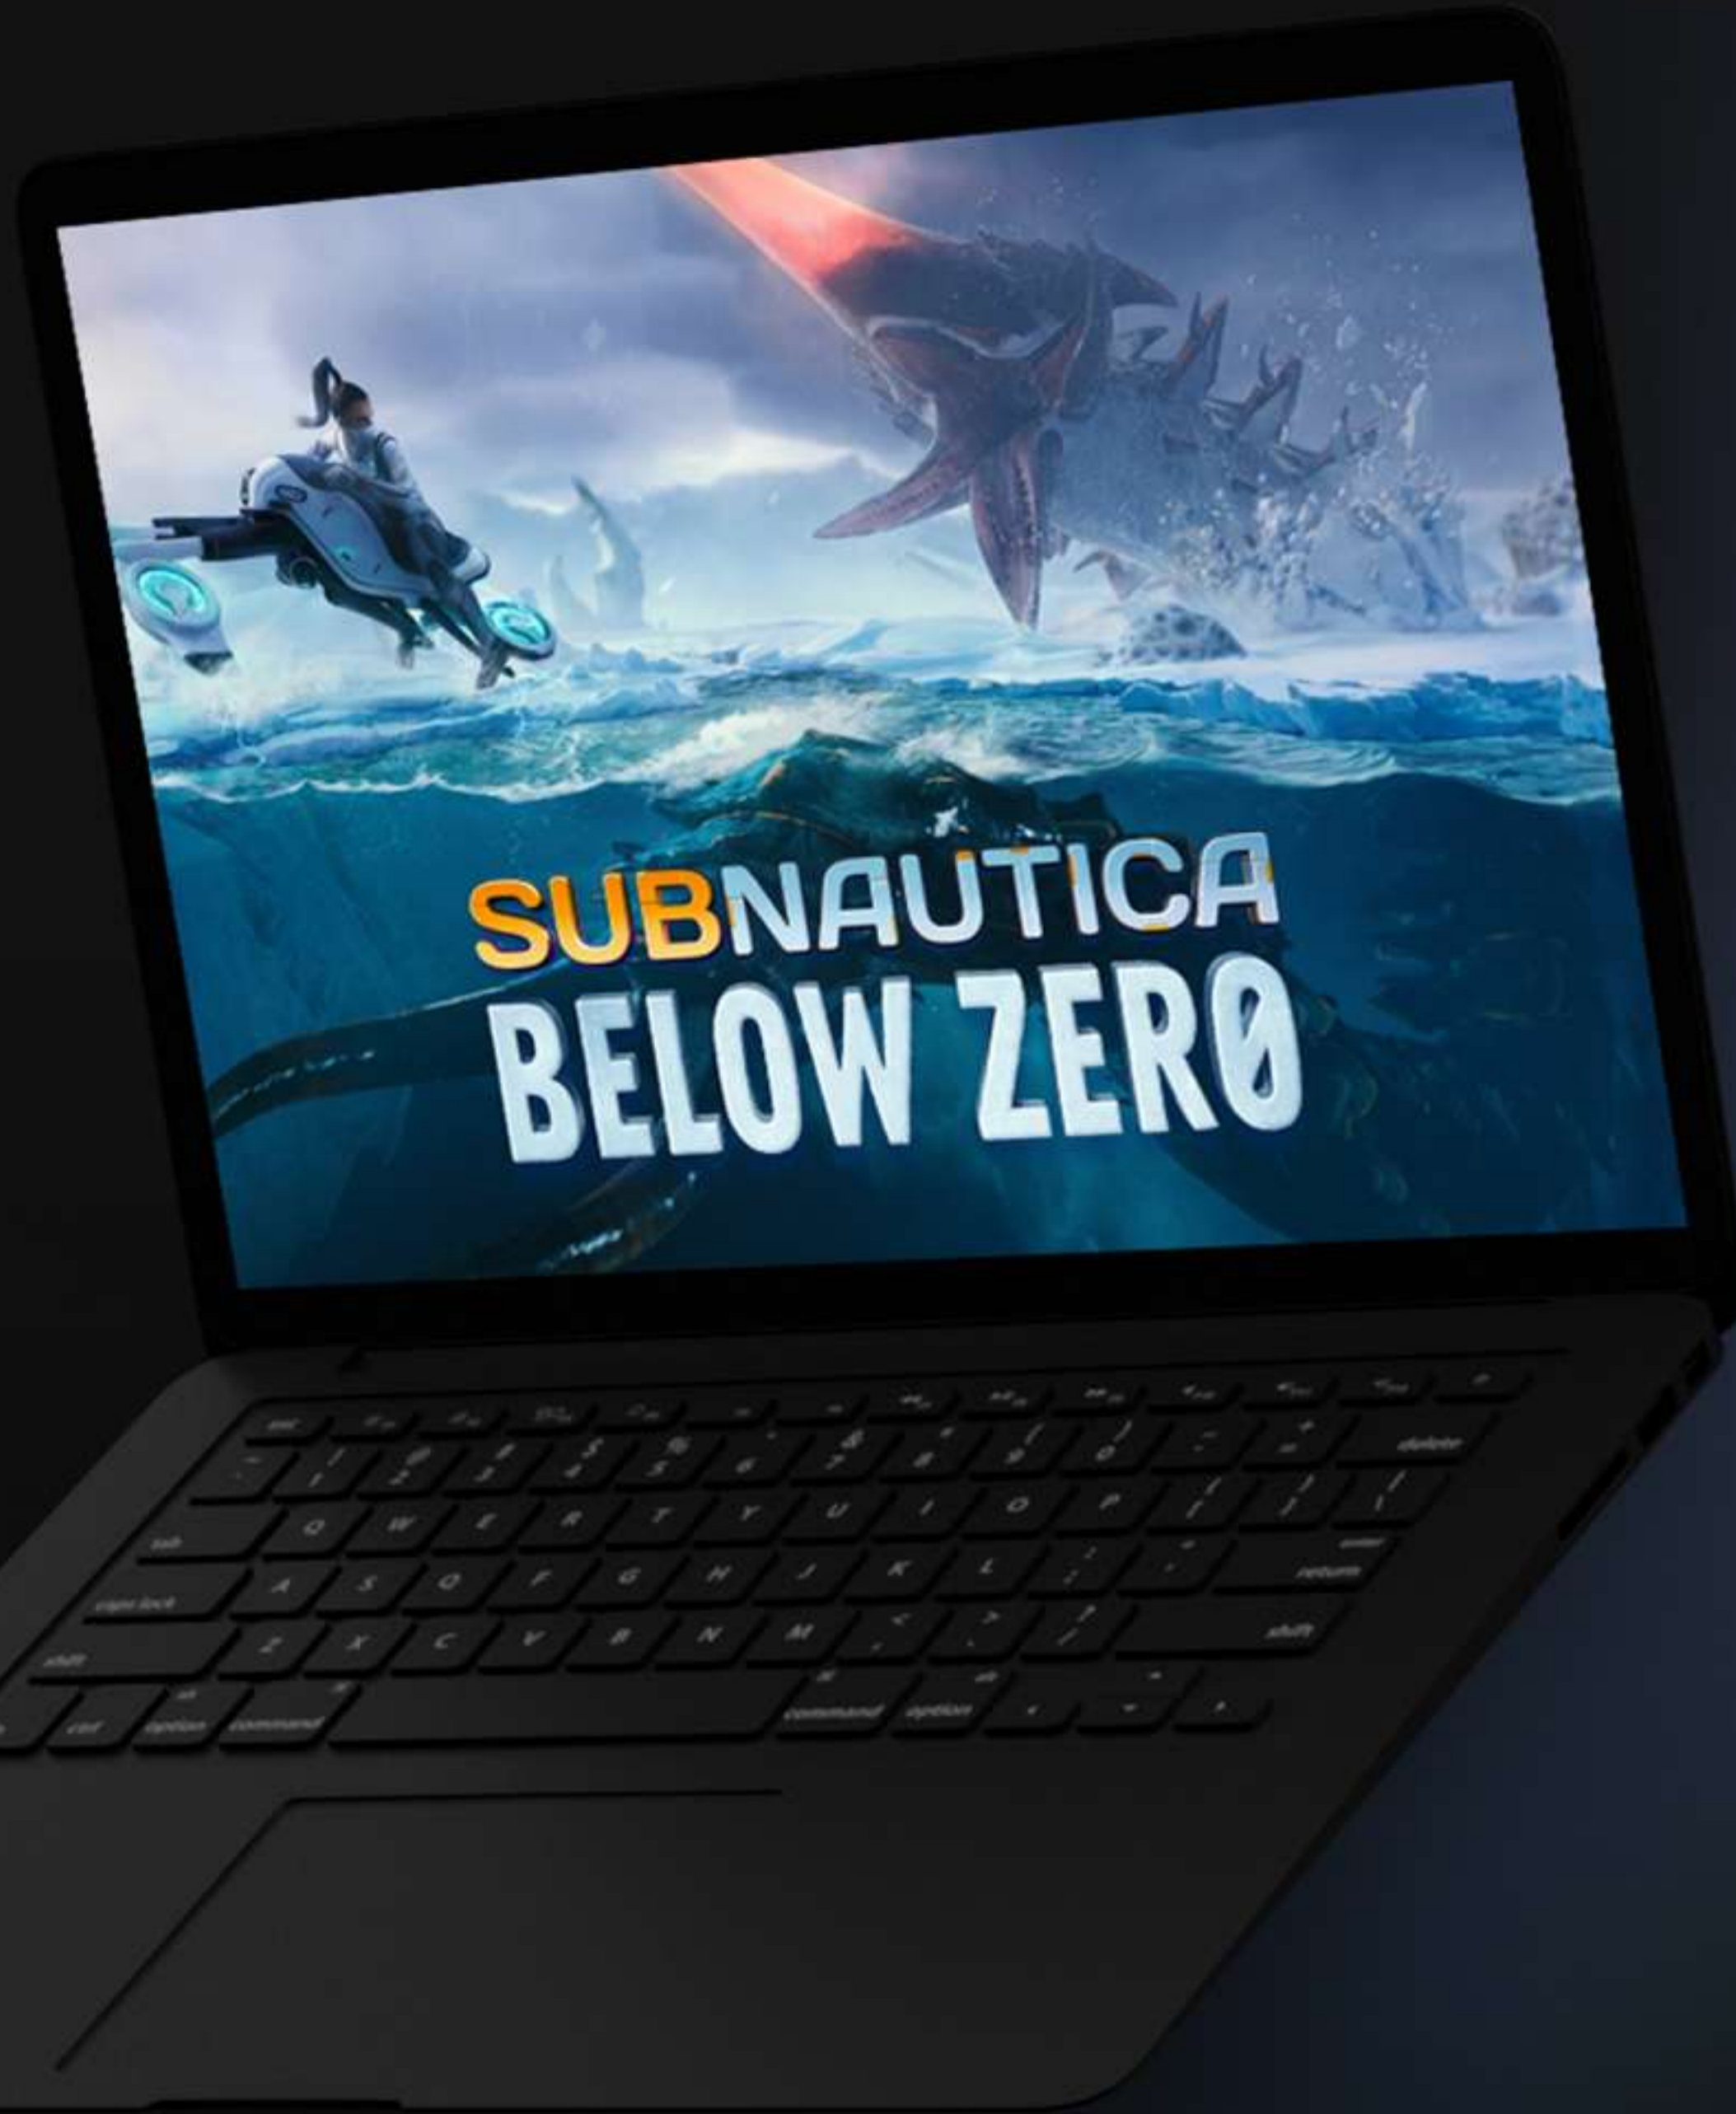

# SUBNAUTICA BELOW ZERO

## UNDERWATER ADVENTURE GAME

Subnautica is an **open world**, underwater exploration and adventure game currently under construction at **Unknown Worlds**. The game is in advanced stage of Early Access development, with substantial content available for play. Performance/frame-rates, stability, and polish are not yet up to the **standards of a finished game**.

# GEORGIA FAMILY

## WEB SITE FOR FAMILY MAGAZINE

Georgia Family Magazine is **Central Georgia's** only parenting publication, empowering **45,000+ readers** to face today's choices and challenges for all stages of parenting. Georgia Family has proven to be the destination to find out what to buy, what to read and watch, and where to go with kids in Middle Georgia. It has **won national awards** from the Medill School of Journalism for its editorials and graphics, and won numerous other awards for Excellence, Best Writing, **Best Layout**, and Best Reviews.

**Software solutions Inc.** designed Georgia Family's web site giving members online access to the magazine's articles and features and providing real time updates to the magazine's content. This was in **direct support** of the magazine's objective of retaining its current readers and attracting new ones. The **website provides** for managing and renewing subscriptions, for advertising, and for informing readers of special events and campaigns.

# STARTUP FOUNDERS

IN DEVELOPMENT

## SITE FOR SEARCHING PROMISING PROJECTS

**Startup Founders App** generates development and cost estimates for a Founder's **new idea** for web and mobile apps. Startup Founders App generates the development estimate for the Founder, and he has the option of being matched up with national and international development teams that the founder can hire to **build the app**.

Now, if a Founder has an idea for a new app, video game or digital product, he can obtain a development estimate by using **Software solutions Inc. Start-up Founders App** and find out how much it will cost to build his app – **Before hiring a development firm**.

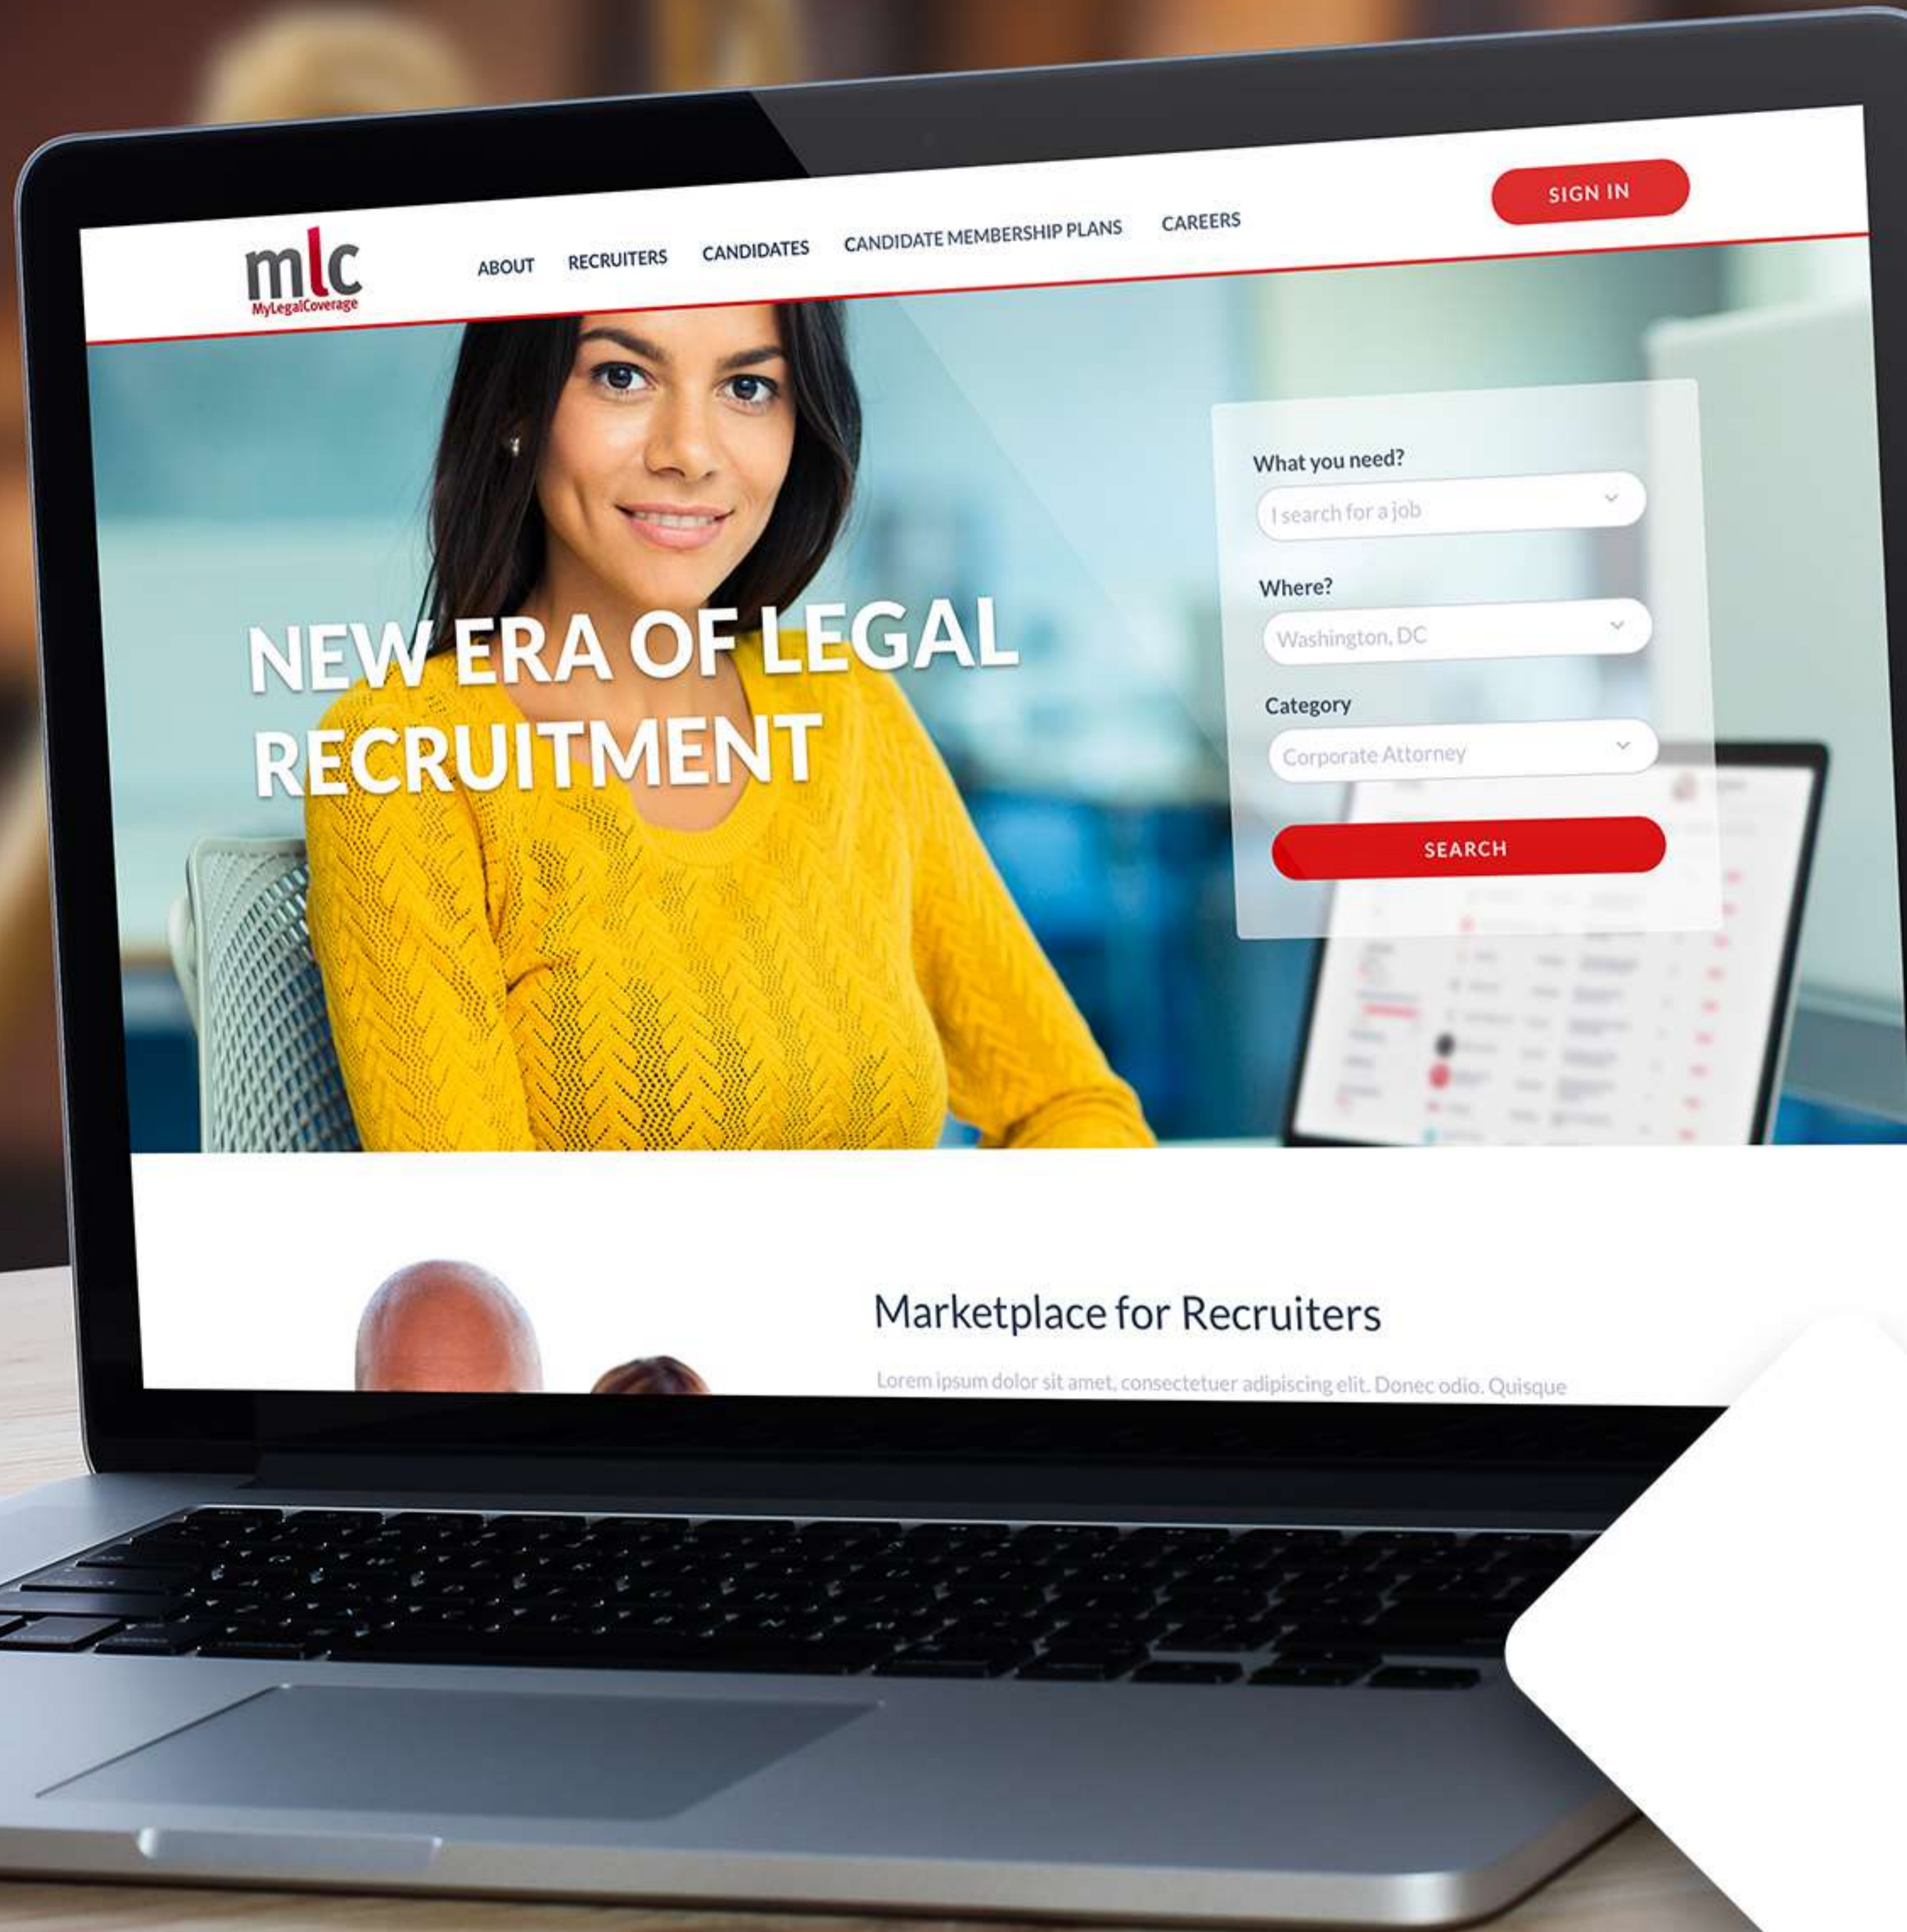

# MY LEGAL COVERAGE

IN DEVELOPMENT

## JOB SEARCH FOR ATTORNEYS

MyLegalCoverage Inc., is a mobile app recruitment marketplace for law firms and corporations seeking to contract or hire **Attorneys and JD Candidates** for immediate legal coverage jobs, contract jobs and associates positions

VIEW ALL REVIEWS

After the paid consult was done, I hired them right away for my GC processing. Everything works like magic. Once a process is started (EAD or RFE), you get an invoice. Once paid, within 24 hours your paralegal contact you for information. Once you send that information, the same day (yes, same day!), they send forms to sign. Once you sign and send, they file it the same day (EAD). For RFE they mailed it same day I sent the information and it reached USCIS the second day.

Amazing knowledge and great guidance!  
I had phone conversation with Aron Finkelstein to discuss queries on my visa status and suggestions on what's next. I shared complete history on my visa statuses and he was patiently listening. Received detailed inputs on options and also review of my history.

# CHILD CARE CHECK IN SYSTEM

## CHILD SAFETY APP

The Child Care Check-in System is SAAS platform Software solutions Inc. **created and integrated** with existing church systems to keep track of members' children while their parents are attending the service.

**The system** tracks the location of each child and sends **automated** text messages to parents informing them where to pick up their child after services, or in the event of an emergency. The app also includes features to manage **child-care staff** and the room-to-child ratio.

# AMPLE SAMPLES™

# AMPLE SAMPLES

## SITE FOR MUSICIANS WHO WANT TO LEGALIZE THEIR SAMPLES

This is an **amazing project** for musicians to help them get copyright on a sample. The professionals on the platform contact the **most famous music studios** to obtain permission to use a musical sample.

The site is designed to connect the interests of **beginners and famous** musicians. Getting copyright is a really tricky problem that **Ample Sample** with professionals in the music world helps solve.

Cleaning the sample will allow musicians to create new **musical masterpieces** and sell their music legally through the service we created.

The laptop screen shows the 'CLIQUE' product page. At the top, the navigation bar includes 'HOME', 'CLEAR SAMPLES', 'THE CRATES', 'TESTIMONIALS', 'CONTACT', and 'SAMPLE EXCHANGE'. The main header features the title 'CLIQUE' in large red letters, with 'KANYE WEST, JAY-Z, BIG SEAN' listed above it. Below the title, there are two columns: 'RELATED MUSIC VIDEOS' showing a video thumbnail for 'CLIQUE' and 'SAMPLES BASED ON THIS SONG' showing thumbnails for 'DIRT OFF YOUR SHOULDER' and 'LOCO'. An 'ABOUT THIS SONG' section is located at the bottom left of the page.

ABOUT THIS SONG	
ARTIST	Dua Lipa
SONG TITLE	Physical
SONG WRITERS	Dua Lipa, Jason Evigan, Clarence Coffee, Jr. Sarah Hudson

The laptop screen shows the 'ESCAPISM' product page. The navigation bar is identical to the first laptop. The main header features the title 'ESCAPISM' in large white letters, with 'LAZY LO-FI DUBS' listed below it. Below the title, there is a central video player showing a person on a rooftop. To the right of the video player is an 'ABOUT THIS SAMPLE' section with technical details. Below the video player is a price tag of '\$36.95' and an 'Add to Cart' button. At the bottom, there are sections for 'DOWNLOAD CONTAINS:' and 'DESCRIPTION:'.

ABOUT THIS SAMPLE	
BEAT BY	ESCAPISM
TITLE	Lazy Lo-Fi Dubs
GENRE	Hip-Hop
FILE FORMAT	24 Bit WAV Format
BPM	70-86
FILE SIZE	458MB
LICENZE	100% Royalty-Free

**\$36.95** [Add to Cart](#)

**DOWNLOAD CONTAINS:**

- 187 x Total Files
- 4 x Construction Kits
- 25 x Drum and Percussion Loops

**DESCRIPTION:**

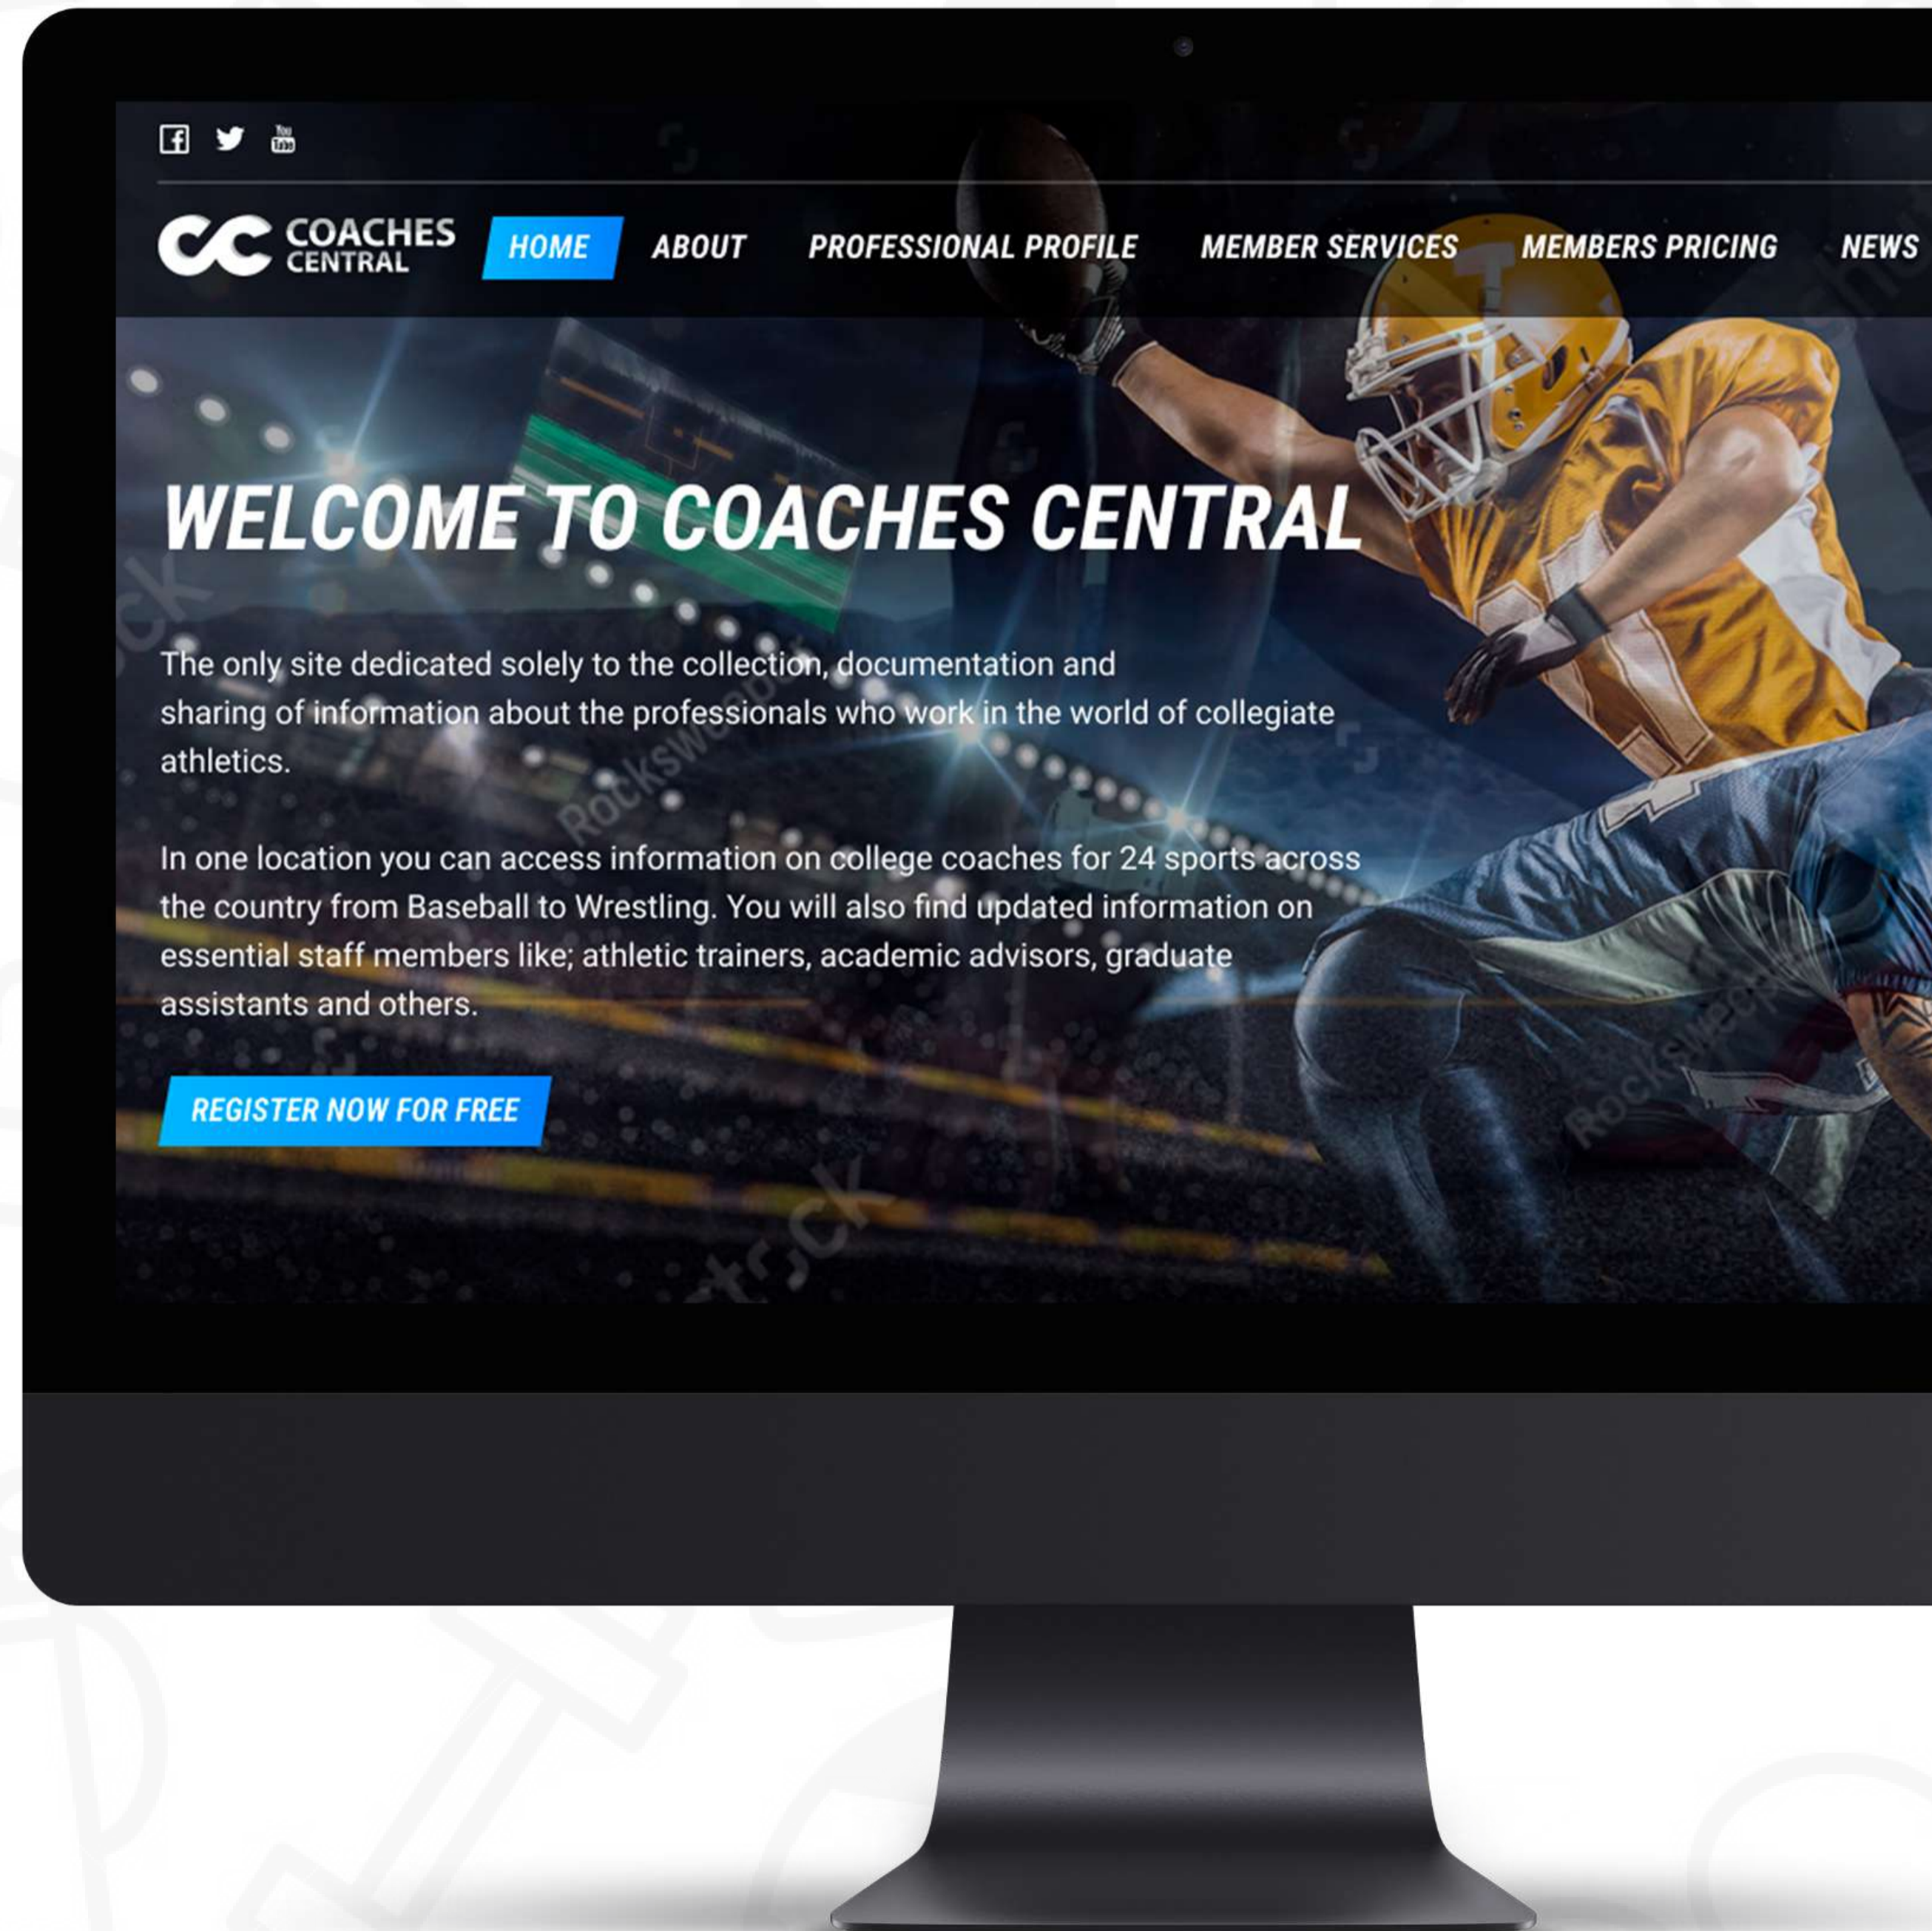

Prime Loops presents our latest release: ESCAPISM - Lazy Lo-Fi Dubs! Escapism is all about capturing those deep and hazy melodies mixed with that Lo-Fi groove that gets your head nodding. Smooth Rhodes licks, atmospheric vocal shots, swinging drum grooves, organic SFX, guitar riffs, warm basslines and more are all inside.

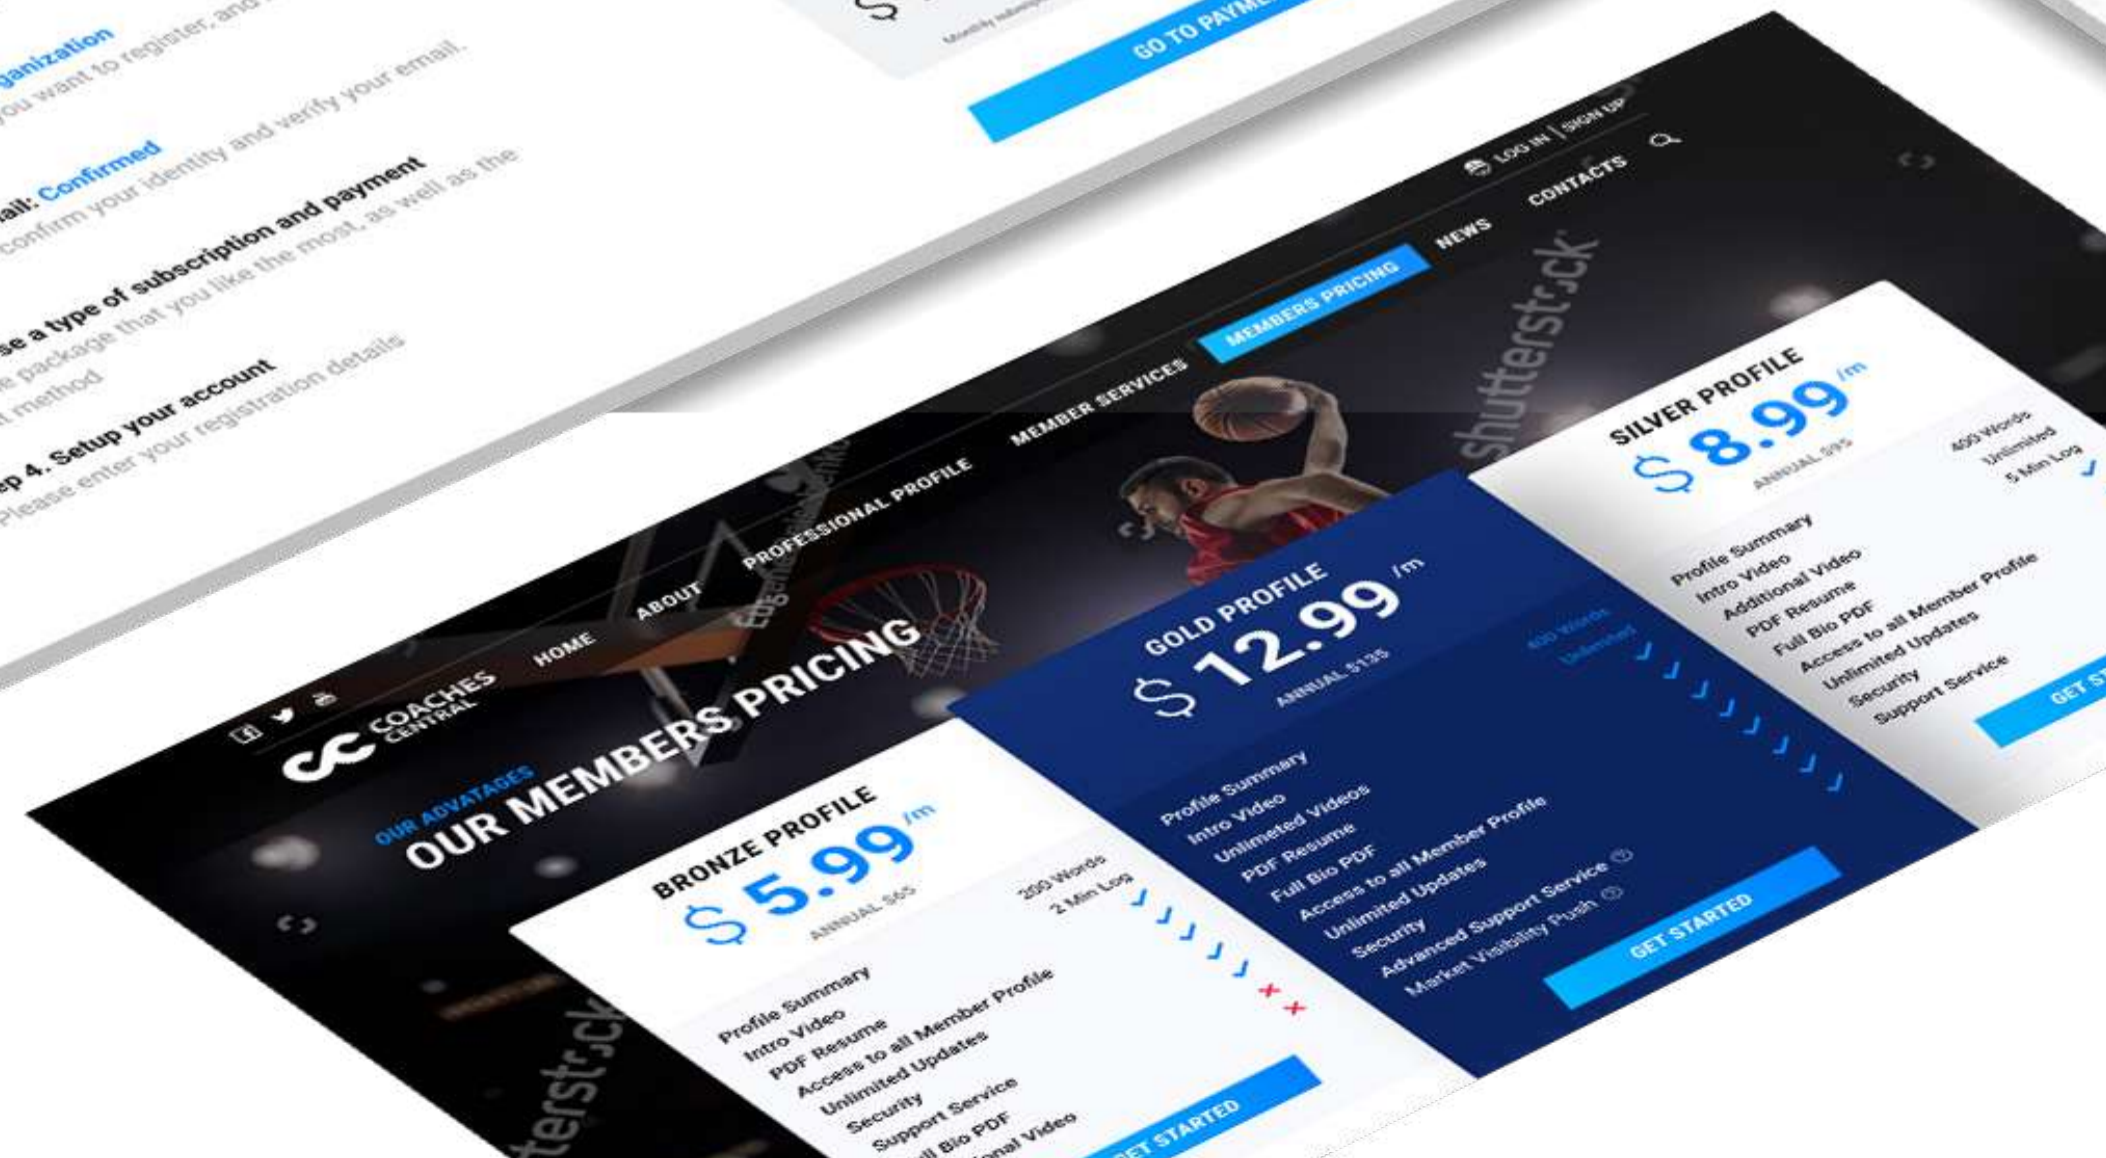

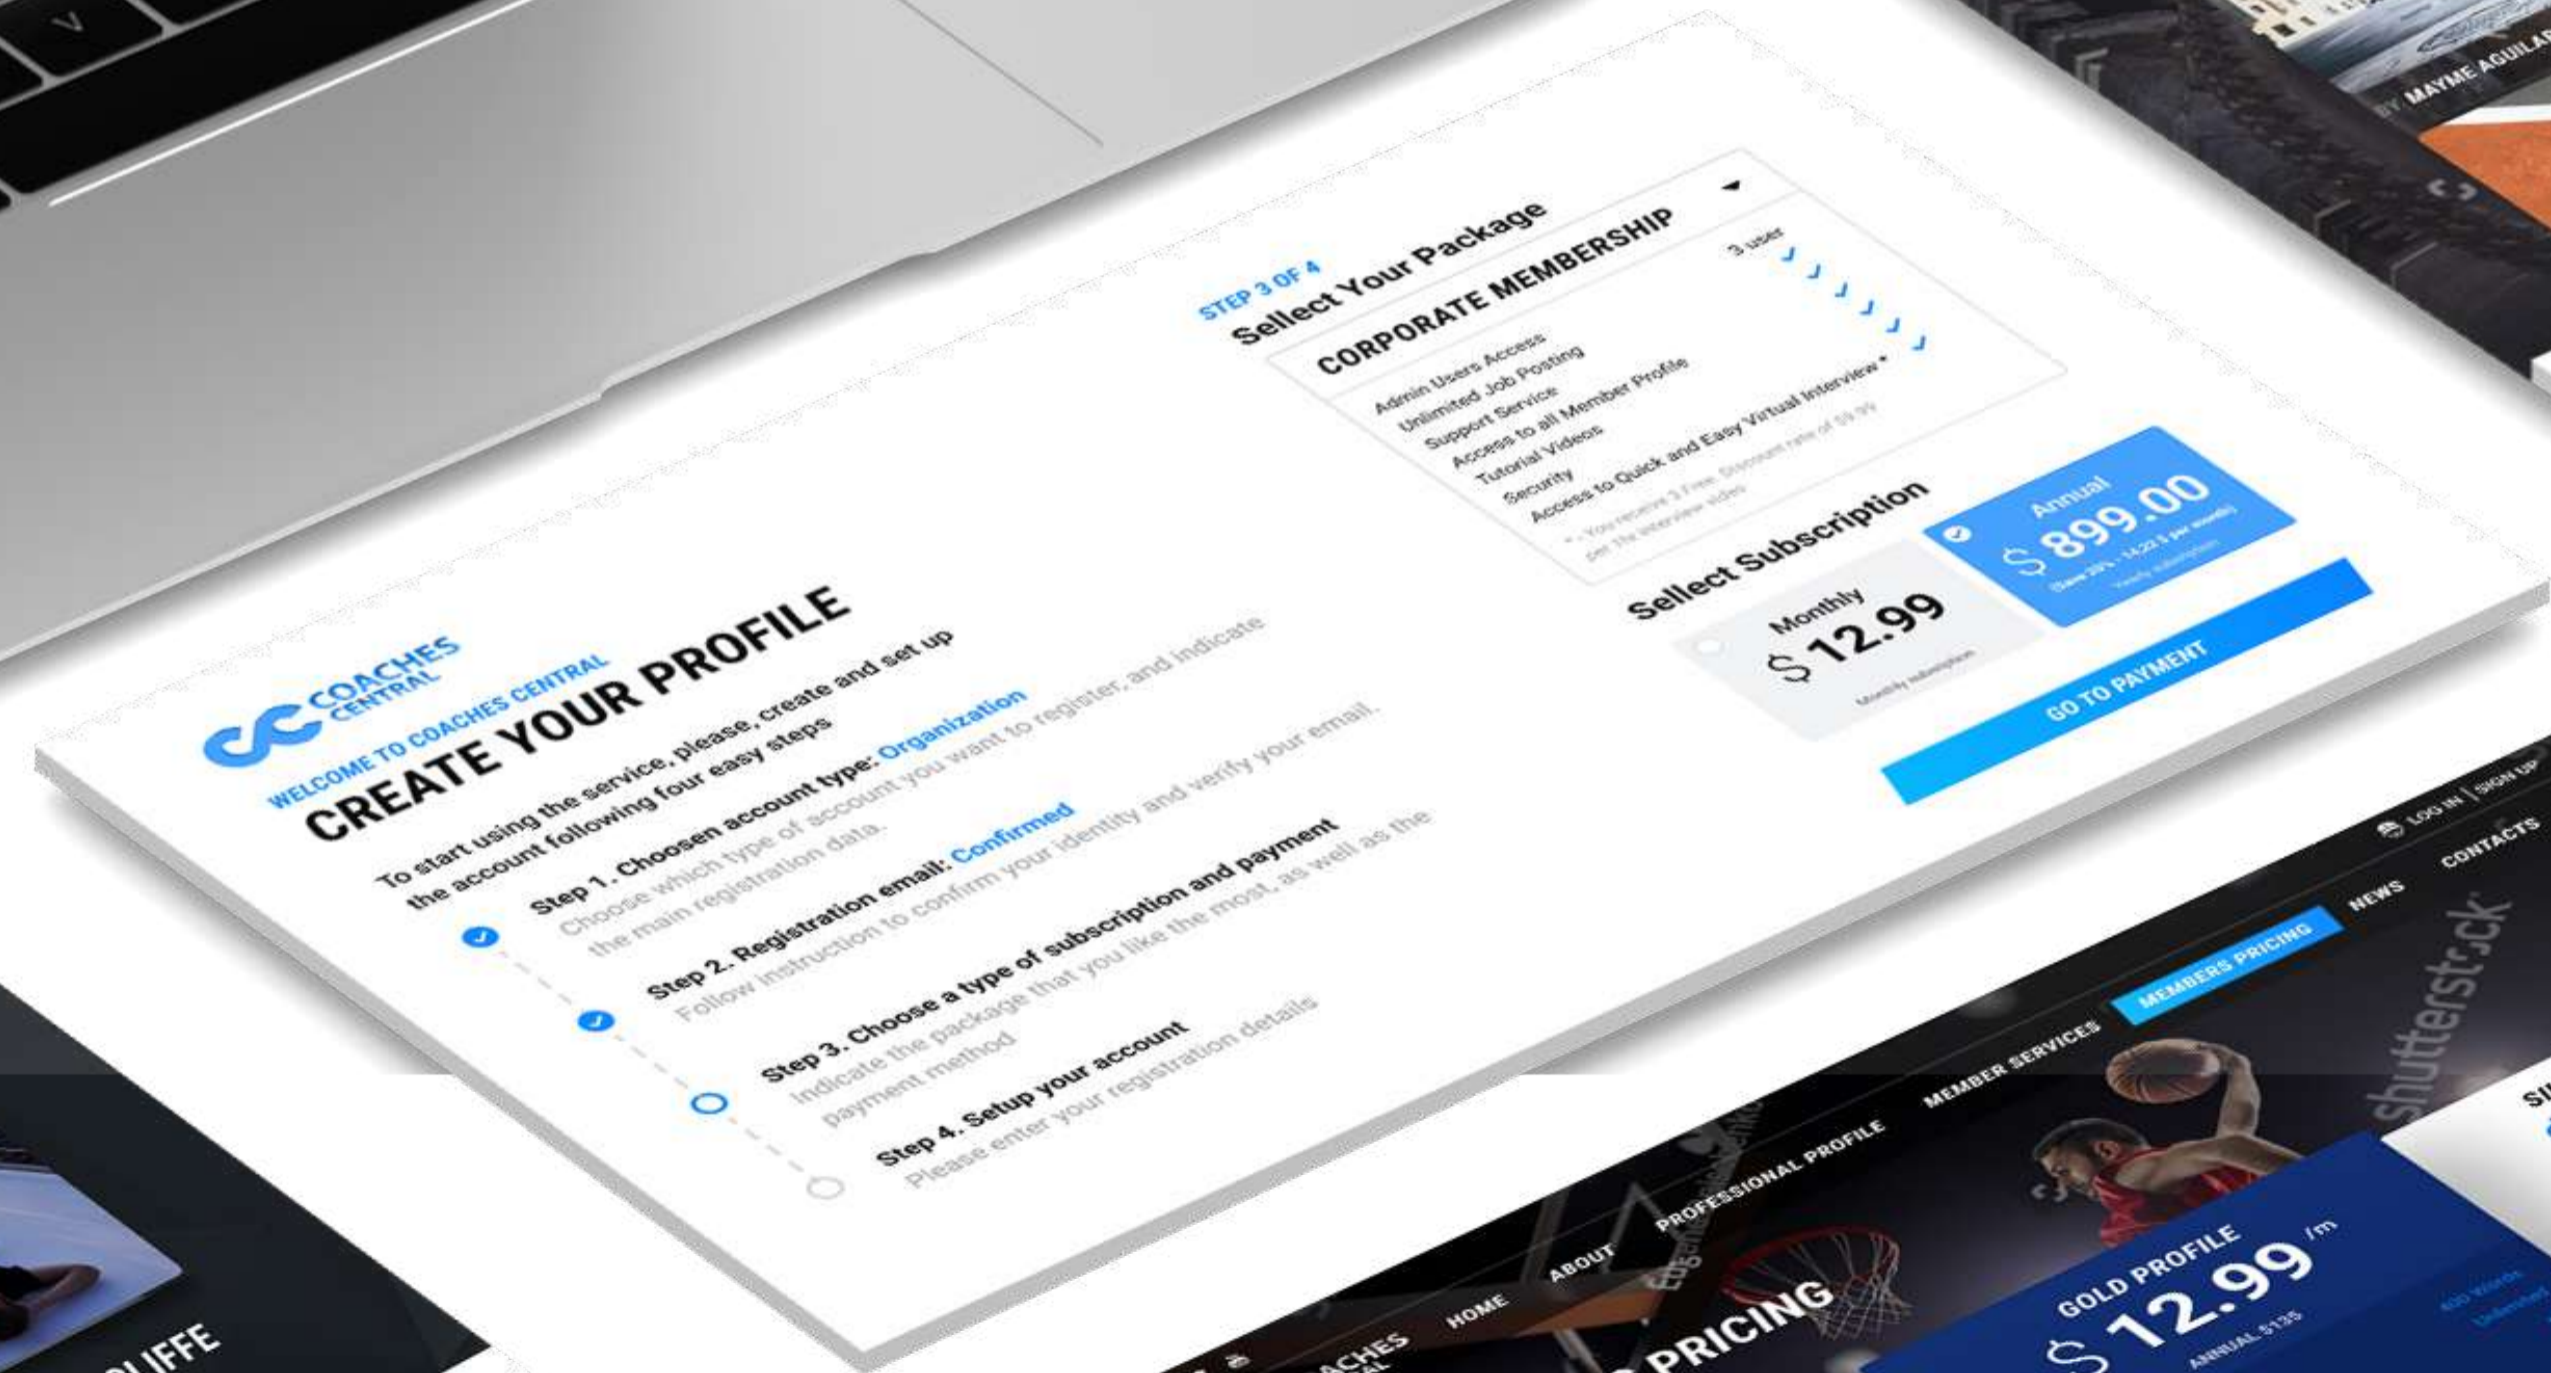

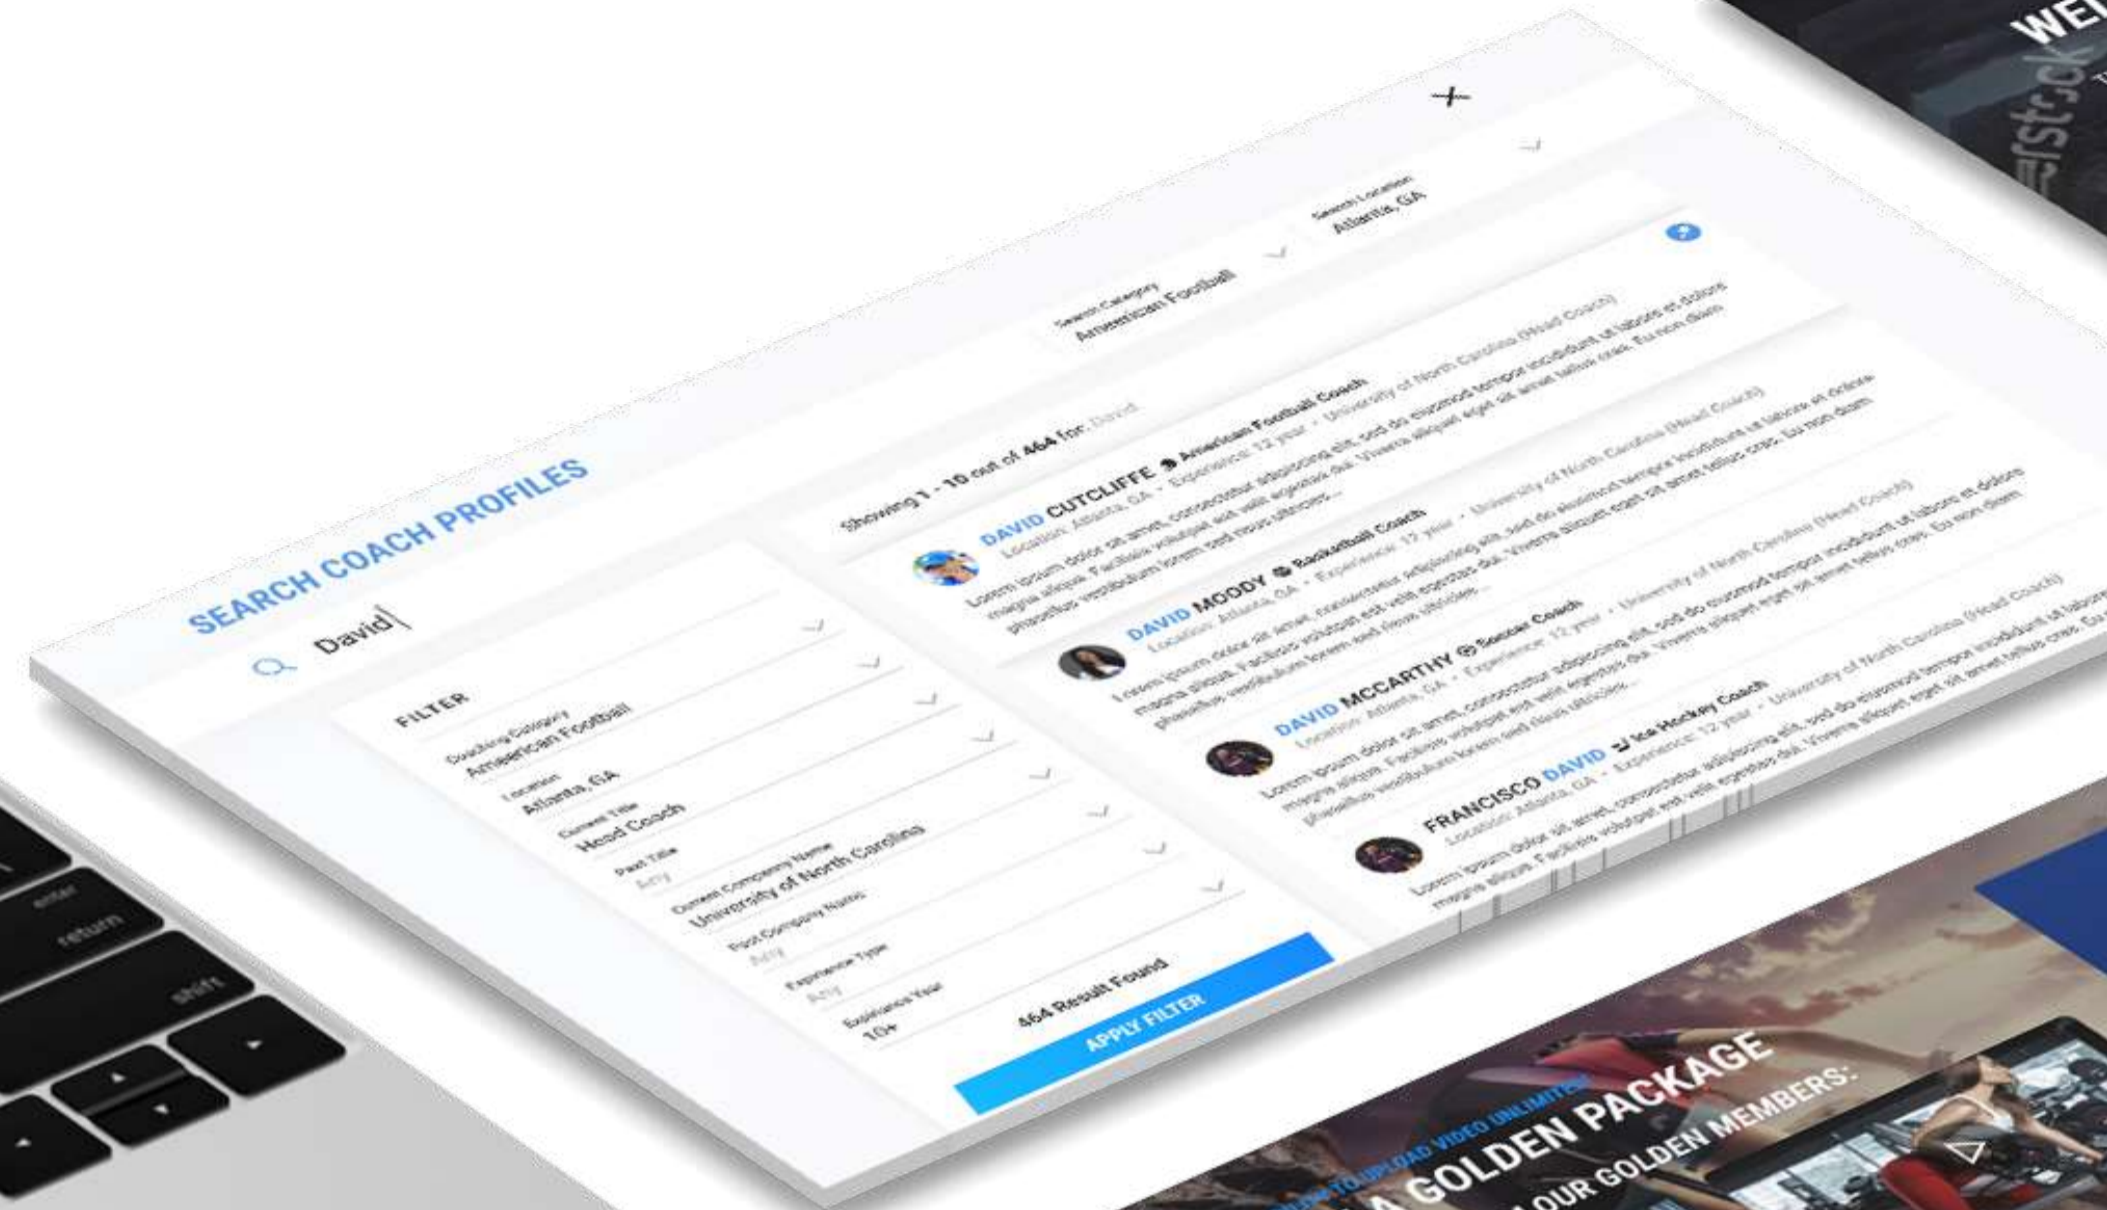

# COACHES CENTRAL

## FOR ATHLETES AND COACHES

Designed for coaches and their essential staff, Coaches Central is the #1 platform for professionals who work in the world of collegiate athletics. Coaches Central allows members to create, update and share a compilation of their body of work.

Our network helps this group of professionals display their skills, find and explore opportunities, and present their talents in a unique way. Coaches Central has modernized the process for identifying and researching college coaches and other professionals in the world of collegiate athletics forever.

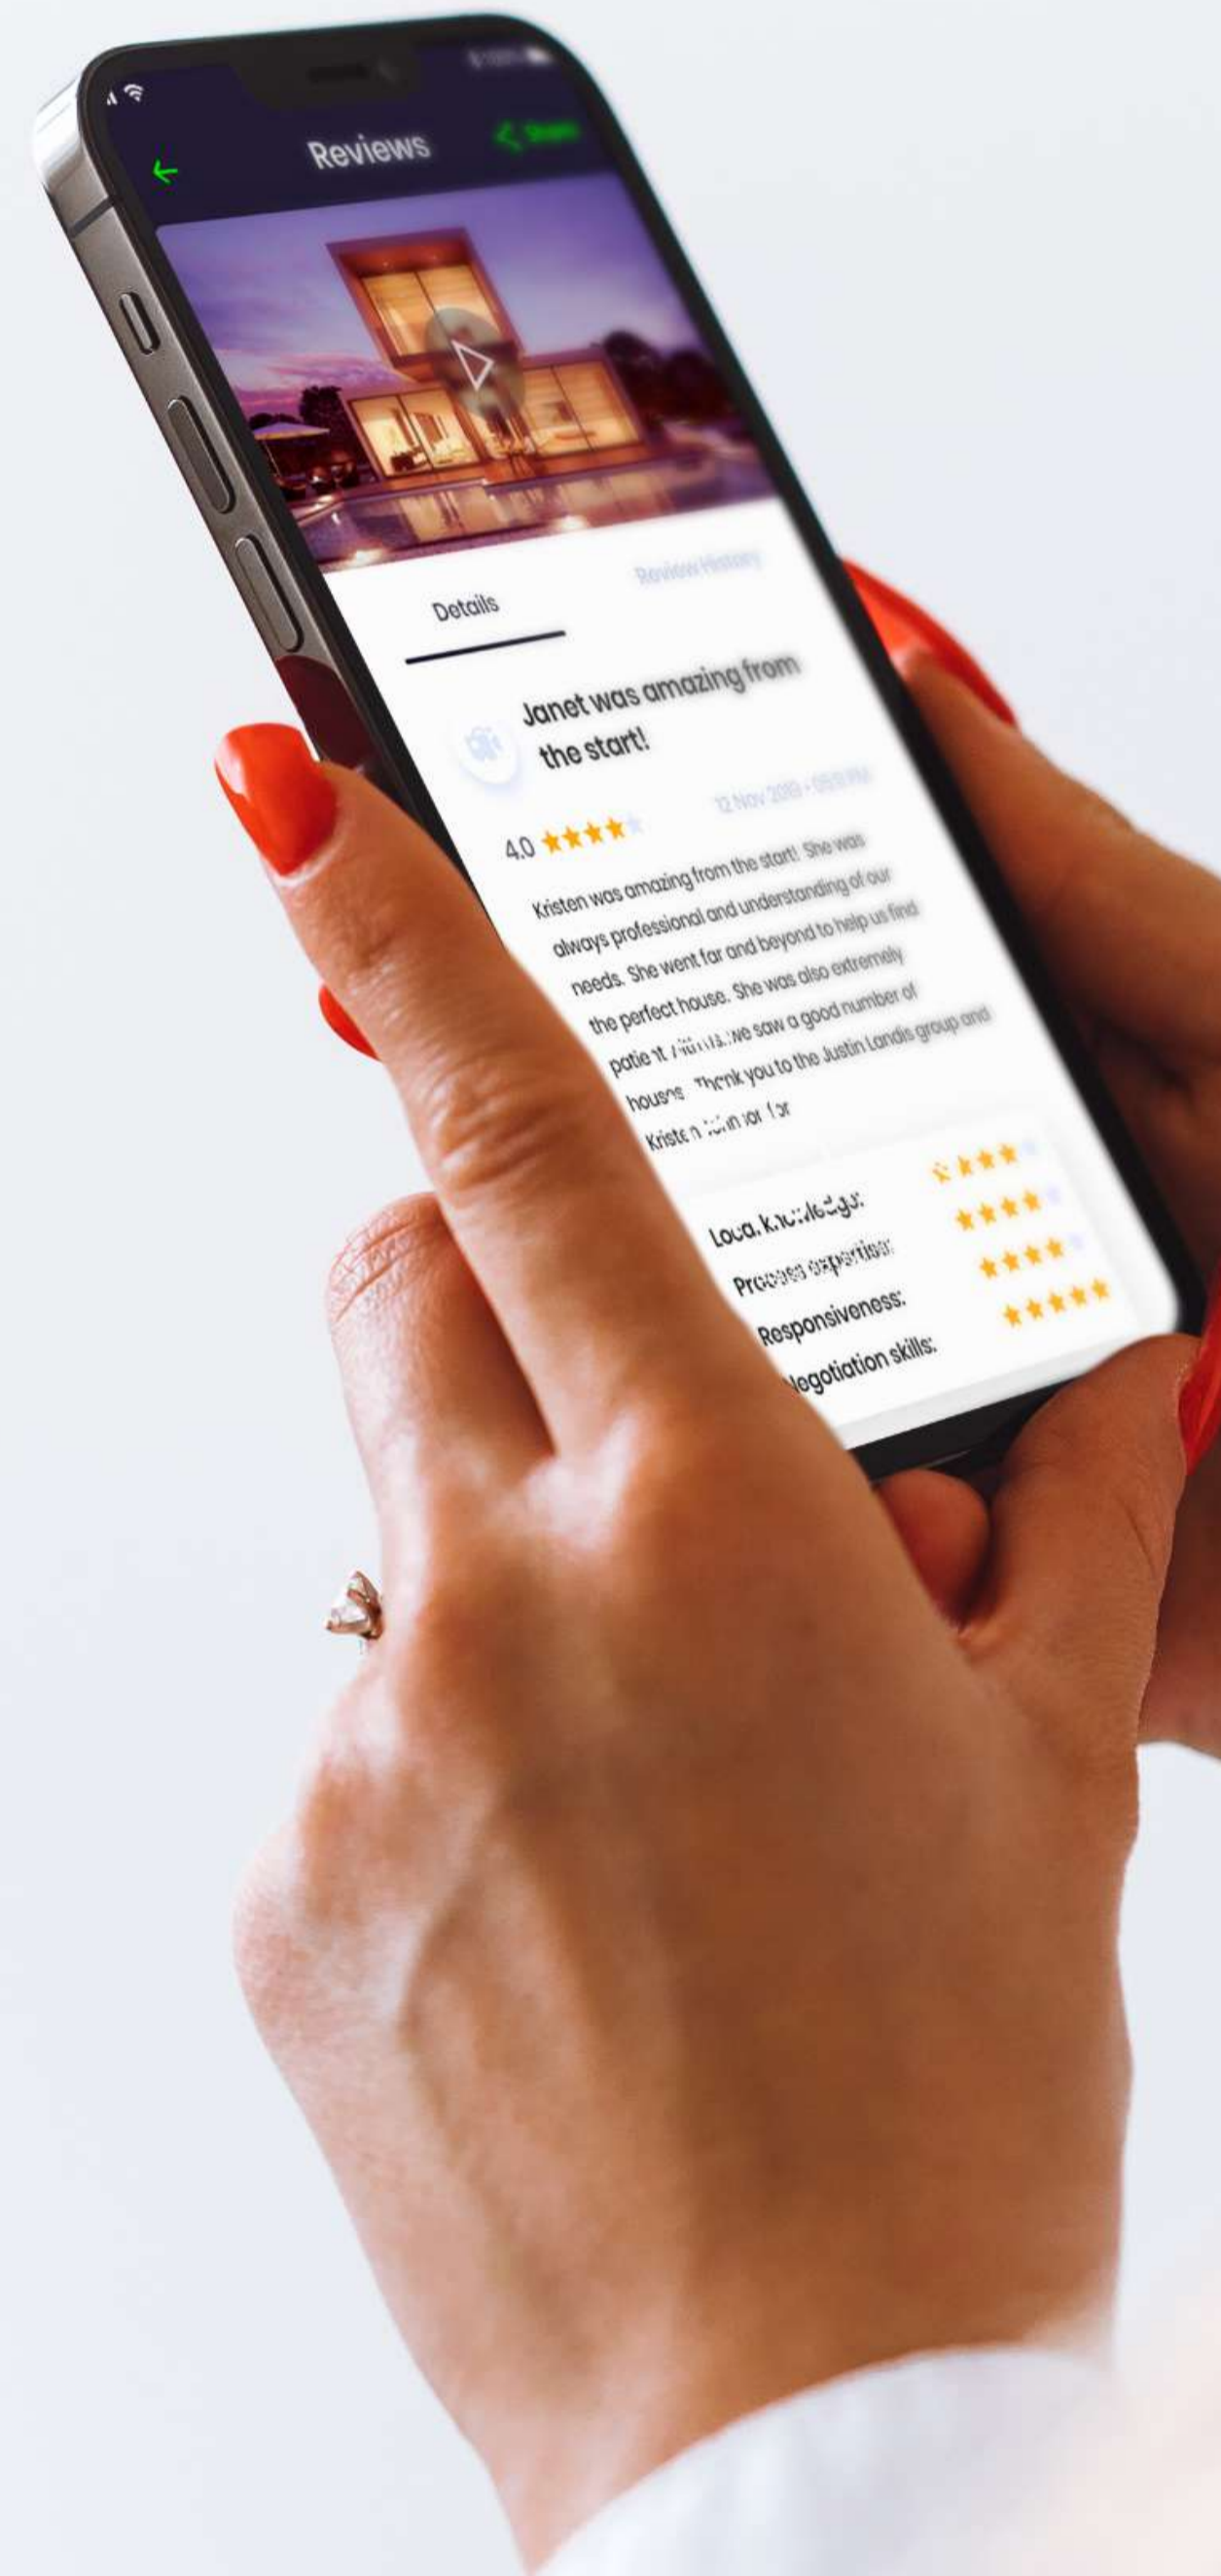

# INSTANT TRUE REVIEW

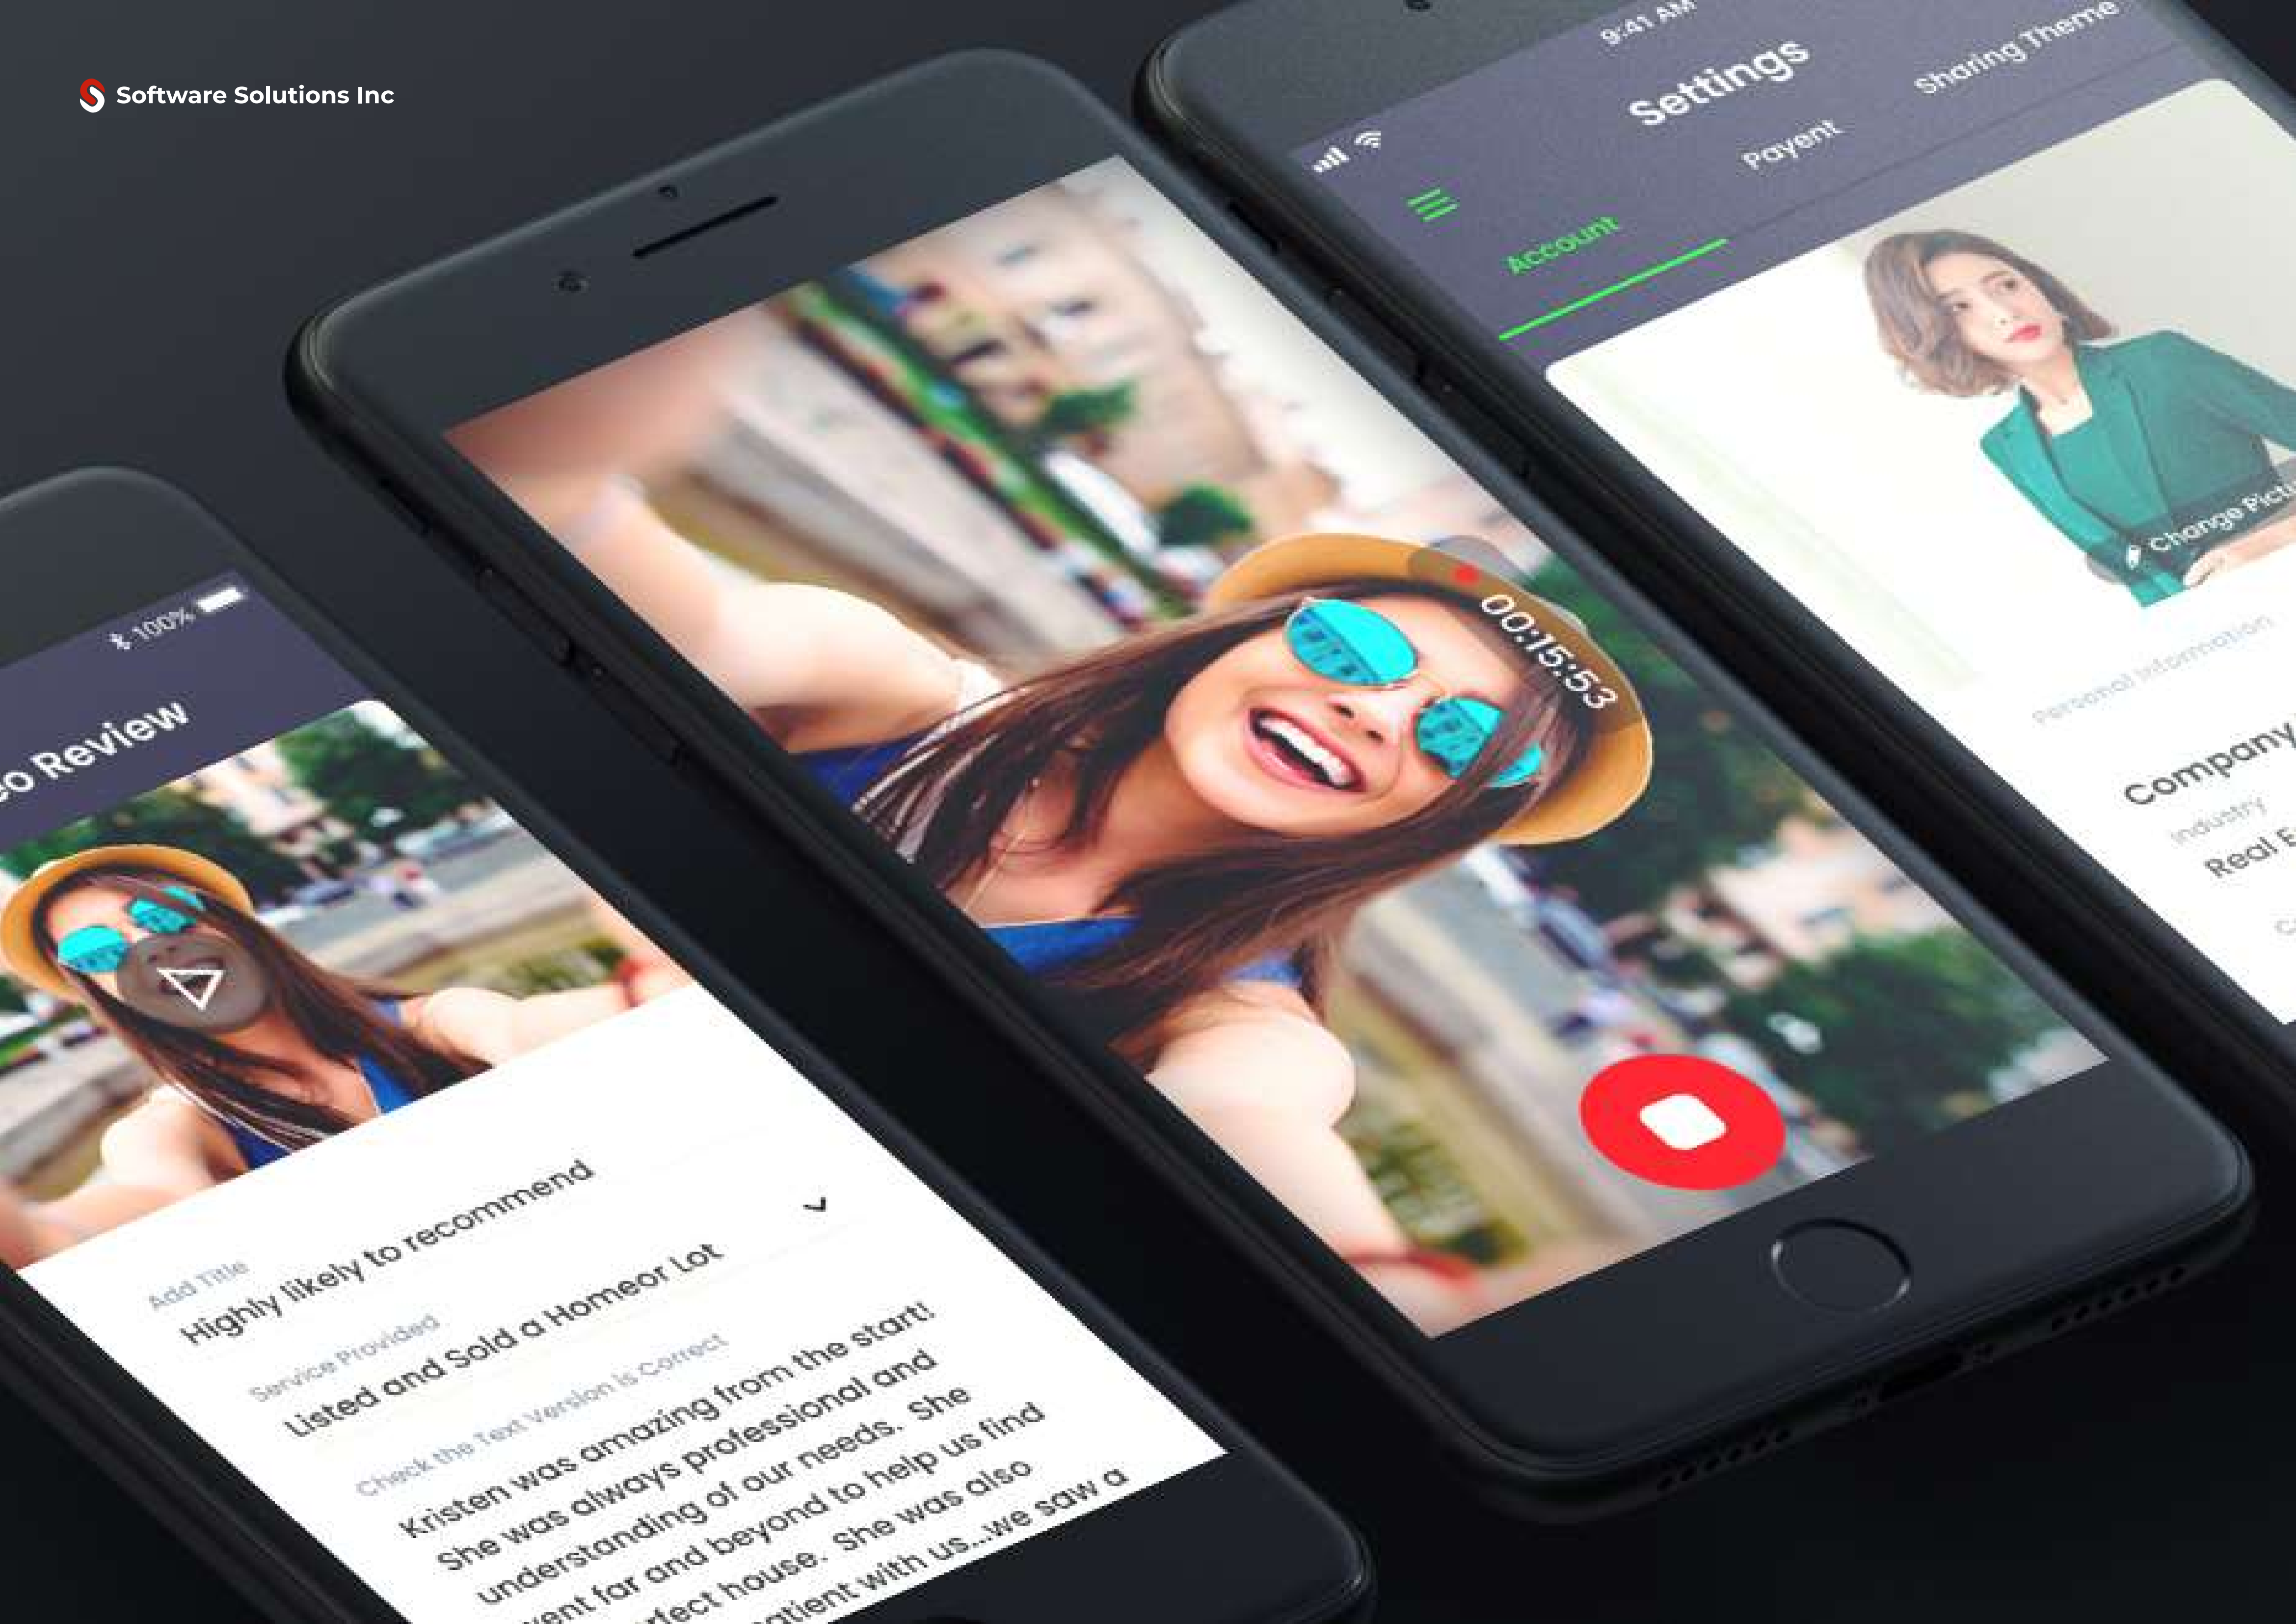

## MOBILE APP OF THE MOST HONEST REVIEWS

**Instant True review** is a platform for professionals who want to **gain trust**. The mobile application allows you to leave reviews that are checked and identified. Feedback can be left in the form of video, text, voice message. The application automatically translates into text and publishes on the specialist's page.

Reviews that were published through the application are rated with a quality mark and cannot be faked. Professionals from all over the world can increase their level of trust for clients. The unique feature of the application is that the reviews cannot be faked or changed.

# FANTERACTIVE

## SPORTS STATISTICS WEBSITE

Fanteractive is built to be the ultimate fan engagement portal providing fans with a unique set of tools to engage in the global sports landscape. The idea for **Fanteractive.com** was conceived by sports industry pros who know the industry and also have seen how insiders can marginalize the fan base for “**not knowing anything.**”

To the contrary, we know fans. Fans also played the game. They break down film and **analyze the games too.** They are invested in their favorite teams and live or die with them. Until now, the fans really did not have a place to showcase their own talent and get the credit for what they bring to the table.
